Verse 1

```
                F#m
It was from the depths that You grabbed me

Up from the miry clay
```

Pre chorus

```
              D       E
It took the blood, of One
      F#m       E           D
The Pure and Spotless Lamb
              D       E
It took the blood, of One
                  D                E  (when going to chorus)
The Man from Heaven    (repeat)
```

            Asus   A
And I will praise You

I will love You with all my heart

And I will thank You
             Esus  E
Forever, and ever
```

Verse 2

It was when I was undeserving
And rightfully earning
Eternal separation from You

Bridge

```
      A/C#                    D
As I see the height from which You reign
       A/C#                    Bm
And the depth to which You came
      A/C#               F#m
As I see the height to which You brought me
           Esus                   E
And the depth from which You saved
```
